

**REMARKS**

The proposed amendments are to alter the dependence of claims 3-5 from claim 2 to claim 1 from which they more logically depend and to correct the wording of claims 7-9 so that antecedent basis is found. The dependence of claim 18 is also corrected; the method referred to is clearly that of claim 11 as claim 1 does not relate to a method.

This Supplementary Amendment assumes that the amendments submitted 17 August 2006 have been entered. As these are formalities, no new matter has been entered and entry of the amendment is respectfully requested.

Examiner Lankford is again thanked for the helpful interview on this case.

In the event the U.S. Patent and Trademark office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing docket no. 437472000300. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.
